<p>Note: When evaluating any claim involving loss or loss of use of one or more creative organs, refer to § 3.350 of this chapter to determine whether the veteran may be entitled to special monthly compensation. 7517 Bladder, injury of: Rate as voiding dysfunction.		Note —Following the cessation of surgical, X-ray, antineoplastic chemotherapy or other therapeutic procedure, the rating of 100 percent shall continue with a mandatory VA examination at the expiration of six months. Any change in evaluation based upon that or any subsequent examination shall be subject to the provisions of § 3.105(e) of this chapter. If there has been no local reoccurrence or metastasis, rate on residuals as voiding dysfunction or renal dysfunction, whichever is predominant.

Testis, undescended, or congenitally undeveloped is not a ratable disability.		Following transplant surgery	100
		Thereafter: Rate on residuals as renal dysfunction, minimum rating	30
		Note —The 100 percent evaluation shall be assigned as of the date of hospital admission for transplant surgery and shall continue with a mandatory VA examination one year following hospital discharge.
